Assessor Comments

Buyers here is a very good line of fully weaned Angus cross heifers that averaged 247 kg after overnight curfew in the yards. These heifers show good bone, length, depth and femininity. They are only for sale due to not suiting vendors breeding program as there a terminal cross. These heifers would be suited to background for feedlot entry or possibly join to the bull of your choice. Please note some heifers some heifers have ringworm around eyes and muzzle not seen to be detrimental.
