Assessor Comments	Buyers a good line of Milk tooth USDA NOP organic heifers. Ideally suited to return to oats and take through to Lucrative Organic kill market or alternatively to put on feed for Domestic trade market. Best described as predominately flat back heifers with a % showing more Brahman content, the majority are of the quality that could be joined and would be an asset to most herds. They were purchased on large to medium framed cows from Western Queensland. Please note some showing lice rub marks as not drenched due to being in an Organic operation. Please note Vendor has 4 decks str in same sale
