	Steers worked well through yards and were a pleasure to handle, with a small % becoming slightly agitated in the crush whilst being mouthed but settled quickly when returned to the mob		
Handled With	Bikes , On foot		
Assessor Comments	Buyers a great opportunity to secure a good line of USDA, NOP Organic oats steers, best described as predominately flat back str with a % showing more Brahman content. Ideally suited to put back on oats and take through to lucrative Organic slaughter/heavy feeder markets or alternatively to put on feed for Domestic trade market. Steers were purchased on large to medium framed cows from Western Queensland and are powering ahead on oats. Steers will load on a light 4 decks but Vendor is willing to leave a few steers out if successful purchaser wishes to load on Bdouble (all str have individual management tags so would be easy to identify re weights). Please note some steers showing signs of lice rub marks as have had no treatments being organic. Vendor has 3 decks of sisters in the same sale
