	Coming off fresh feed heifers were feeling good and were unsettled in the race and headbale. Settled down much better when put back into the yard.		
Handled With	Bikes		
Assessor Comments	A tidy line of Vendor bred Santa Cross heifers that have been weaned and starting to do after having had a bit over 3 weeks on an oats crop. Versatile heifers that are good enough quality to be kept as future breeders, soft enough to do a trade job and with enough frame to grow out to a heavy feeder or fatten. Please note vendor has 18 steers in the same sale and the mothers to these steers in the Eastern States being sold as PTIC cows.
