Bikes

Assessor Comments

A very good line of 1 brand Angus heifers account the breeder. Heifers are NSM. Very good quality heifers from one of the best herds in the district. Heifers are well grown and show very good type. Texas Angus and Clunie Range Angus bulls used with vendor buying at the better end of these bulls. Bulls selected for structure, butt shape and depth of body. Also calving ease - 400 day growth, better than average eye muscle and positive fat cover. Must be in top 30% or better. Steers regularly go to feedlot at a young age. Note - 2 heifers old blue eye scarring (not detrimental) 1 heifer fresh pink eye - treated with Orbenin at assessment (may require follow up treatment). Quality line of heifers that would suit as future breeders or feeder heifers.
