Assessor Comments	A small line of Vendor Bred Angus Weaner Heifers, sired by Texas Angus Bulls. At assessment the Heifers weighed from 183-263kg to average 233 after an overnight dry curfew. The heifers were bred on lighter country to the East of Tenterfield and trucked to the Vendors house yards for weaning until delivery. During this time they will have access to quality Lucerne hay and the vendor will work the cattle through the yards daily to help educate them. Please make your own allowance for the weight loss over this period. Please note there are 2 unbranded Heifers in the mob that may have not received their 5in1 vaccination
