Assessor Comments	EU Accredited. These are the lead of the Charolais X draft. Steers are in great condition to power ahead on better feed. These cattle handled well through the yards, they are quiet after their extensive weaning program after being trucked home from agistment at Quilpie QLD. 2 blue eyes observed not detrimental. 3 or 4 of the bigger steers in this lot would on occasion drop their pizzle indicating being marked a little late. As you can see in the photos none are showing any thickness so not considered detrimental. Steers suit domestic feedlot trade or grow out to export EU Feeders.
