Assessor Comments	EU Accredited. Very even line of predominantly Angus x Angus heifers. These cattle were trucked back home from agistment at Quilpy QLD in February with their mothers and weaned onto hay and pellets. These heifers were handled every day for up to 6 weeks leading to cattle that are a pleasure to work through the yards and crush. The condition of these cattle tell me they will explode on better feed. 5 showing a blue eye, not considered detrimental. Ideal heifers to take forward as future breeders or to background as domestic feeders.
