Assessor Comments	EU Accredited. These are the younger end of the Charolais X draft . Cattle are in great condition to power ahead on better feed. Trucked back with their mothers from Quilpie in February and then weaned on hay and pellets, being in hand for 6 weeks. These cattle handled well through the yards, they are quiet after their extensive weaning program. 3 blue eyes observed not detrimental. Heifers suit domestic feedlot trade or grow out as quality future breeders and steers would suit the domestic or EU feeder market.
