	Steers do have some rush about the yards, especially when pressure is applied. Keep in mind steers are only young and this is the second time they've been in yards and handled in their life. I'd like to think with handling these steers would settle down. Their cows were easily drafted & handled in yards.		

Handled With	Bikes
Assessor Comments	A small line of vendor bred Brangus Angus steers. Steers for best description are a Ultrablack type with some having slight ear and some leather underneath. 1 steer is white face baldy. Pulled off mum this morning and will be yard weaned until delivery, they will access to good quality hay. These steers will go ahead given the opportunity and will not disappoint. Vendor will sign PCAS eligibility form for any purchaser that requires. Please note that one or 2 steers show some signs of being marked late, young enough to grow out of, not considered detrimental.
