	Steers were typical of unweaned calves running from one end of the yard to the other. They had minimal block under a bit of pressure but quickly settled once left alone. With a proper weaning and some handling they wont be a problem.			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	A very good line of Angus and Charolais cross steer calves that will not disappoint. By Lawson Angus bulls out of large			

frame Shorthorn, Angus and Santa cross cows. They are very well grown for their age and would be ideal to take onto feeders or onto a kill job. Calves will be weaned at delivery.
