	Quiet: 12 head	Quiet: 12 head	Temperament not assessed in

	Slightly Stirry: 2 head	Slightly Stirry: 2 head	Paddock
	Unweaned heifers that require a full weaning & education program . These heifers were fairly good to handle but Obviously had a bit of run in them at assessment just off their mothers. These cattle have had no other handling other than at marking & will respond well to a weaning program. (See Video)		
Handled With	Bikes , Horses , Vehicles		
Assessor Comments	Good Quality Booroomooka Blood Unweaned Heifers weaners . Ave weight at assessment: 246.6kg (205-269kg) A even line of heifers running on a property on the Bogan River, they are being sold direct off the cows . Calves are in excellent fresh condition. They are Deep bodied with plenty of length to grow out to suit as future Breeders or take onto heavier feeder or kill weights. Calves that have only been handled once at calf marking in May hence will respond well to a good weaning Program & education in the yards . One animal showing a small lump under jaw (See Photo) These are a nice line of heifers in a tight weight bracket & will perform well wherever they go . Note: Brothers to these Heifers also in this same sale .
