Assessor Comments	On offer are a Superb line of 29 Red Angus Cross Feeder Steers that average 386kg and are 10-12 months of age. All steers are by Durham Tropical Bulls (Santa/Shorthorn cross) and out of Red Angus & Red Angus cross Shorthorn Cows (see breeds for a better description). Steers have been running on natural pasture and were held in the yards on hay for the last 7 days. They have plenty of frame, are in a healthy store condition and are perfect feeder cattle with a lot of complimentary gain. Steers were marked a little late in early February, there are 2 with horns, 4 with scurs and were drenched with dectomax on the 9th of August, so they are still in a withholding period. A great line of feeder steers that will grow out into exceptional export cattle. BUY WITH CONFIDENCE
