Assessor Comments	On offer are an OUTSTANDING line of 34 Red Angus Feeder Steers that average 353kg and are 10-12 months of age. All steers are by Red Angus Bulls and out of Red Angus cows with a couple being out of Red Angus cross Shorthorn Cows (see breeds for a better description). Steers have been running on natural pasture and have had access to the hay feeder. They have plenty of frame, are in a store condition and are perfect feeder cattle with a lot of complimentary gain. Steers were marked a little late in early February and were drenched with dectomax on the 11th of July. A great line of feeder steers that will grow out into exceptional export cattle.
