Assessor Comments	A line of good quality breeders which are PTIC 2-4months to speckle park bulls. These cows are predominantly medium to large frame and were very good to handle on assessment. The vendor has pre treated these cows with Paramax Backline to help assist with movement to clean areas, but note all clearing costs are to fall upon the buyer. Please note there is one cow with a hgp ear hole which was present when purchased and there is one cow with a snoring nose but does not affect the cow. Overall these cows would suit purchasing for long term breeders or even being used as receipts.
