Assessor Comments	A Tremendous line of PTIC F1 Heifers, Joined to the Black limousin Bull - "Cell Fearless" using Synchronised A.I for a very tight calving period. These heifers will grow into terrific vealer mothers. Exceptionally quiet and showing terrific growth for age. Averaging 589kgs (full) as 2.5yr old Heifers. These heifers have plenty of capacity and scope to continue to grow and develop into very large cows. Heifers of this quality can be very hard to find. Vealer rearers this is an opportunity not to be missed.
