Assessor Comments	A line of 35 2nd to 4th calving Watervalley black cows with 35 calves at foot 446kg at assessment. The cows present as good forward store condition and the calves are very fresh and healthy. Cows are generally easy handling in paddock and yards with no vice in the round yard. Cattle have been on fresh green grass and crop based pasture and will grow on if fresh feed is available and sunshine. Watervalley cows are well known for their ease of calving and good doing ability under most environments, they were drenched, 5in1 vaccinated, B12, Multimin and had a backline for lice so these younger cows have all the hard work done. Note- 3 cows with a lump on the jaw but are in healthy condition.
