Assessor Comments	A very nice line of Dohne ewes originally purchased off the breeder from a dispersal sale. These ewes are good framed ewes and are in very good condition. Bred on Uadry/Calga bloodlines with the objective of having highly fertile plain bodied ewes that produce nice soft wool. They have been drenched with trifecta on the 20/7/21 and vaccinated with 5 in 1. They were scanned 100% in lamb to poll Dorset rams on the 17/8/21 with 111 singles and 79 multiples. Due to wet conditions were odd ewe has long toe. Ewes have had all animal health treatments and good nutrition plus freshly shorn ready to lamb down in a magnificent season.
