Assessor Comments	Annual sell off of Metala's complete drop of A/M 2017 drop ewes. Ewes are well bred with vendor selecting class Dalveen sires for 50 + years. Ewes are predominantly large frame and plain body. Please note ewes were yarded 17 hours prior to weighing and also lambs have only been weaned at assessment also. Ewes will now continue to improve on feed. These 4.5 yo ewes would be ideal breeders for self replacing flock or terminal lamb operation. 2 ewes showing slight scur/horn (refer photo).
