Comment on Fat Score 1 Cattle Cows are store to backward store condition. Given these cows are young & energetic they will handle travelling long distance, with regular 800 km spells. May require dipping at Richmond/Julia Creek if crossing the tick line, therefore would require a spell the same day. Recommended loading next day after dip. All have been on trucks as weaners over 800 km so are familiar with transporting.

Vendor Bred Yes
 Cattle not tagged at time of assessment, and will be tagged prior to delivery
 Stock History Vendor Bred heifers. Bred on vendors Northern QLD breeder property and relocated 2020 to backgrounding property.
 Lifetime Traceable Cattle SHOULD be lifetime traceable but no guarantees will be made due to inter property transfers that may have some

Bloodlines	non readers or odd malfunction Vendor bred heifers using quality Brahman Sires. Out of large brahman base cow herd located at `Chillago. Approx 35% of poor quality & confirmation							
Grazing Conditions	A fair stand of dry Mitchell & Flinders grasses. On open rolling black soil downs country. Returned same							
Burr/Seed in Coat	There is prickly acacia on this property. Bean pods are currently soft and developing therefor the risk of seed spread is minimal. cows are being fed on hay in vendors yard with no seed exposure since 1/9/21. By delivery risk of seed spread is low							
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives							
Chemical Residue	Nil							
J-BAS Score	6							
Vendor Comments	These heifers are typically not replacement style heifers in our herd, they have calved due to unanticipated bull exposure. They are nervous/anxious in and out of yards, usually mustered with helicopter & bikes. Sale due to depleting feed.							
Joining Details	Station Mated - Continuously Joined Bull Breed(s): Brahman							
Preg Tested?	No, this lot was not pregnancy tested.							
Other Joining Details	Cows have been rejoined but due to the small size of the calves it is assumed that there would be very few re-conceptions. Calves by Brahman bulls

	Aggressive: 5 head							
	Cows are nervous & anxious in the yards as a mob. They are sensitive to small amounts of pressure & have a long flight zone but are generally not aggressive. They require experienced handlers especially with brahman cattle recommended. In the head bale when caught all showed anxiety. In the paddock on vehicle inspection cows generally settled. except for a few silly leaders, cows generally settled once reunited with calf after processing. Not pound drafted. Always exposed to helicopter mustering.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles							
Assessor Comments	First calf heifers & cows with 100% calves at foot. Cows av 306kg & 56kg brahman calves. Cows display potential to continue to grow out on good pasture. 100% display hump. Generally fair bone & fair confirmation across the mob. 100% vendor bred. 10 cow/calf units discounted by \$500 Hd off the price paid, for poorer Quality tail & faults in mob & 1 tiny woody calf. COW Colour: 28% honey, 15% red, 20% grey & 29% black brindle & 8% brown . CALF Colour: 61% red/honey, 31% grey, 8% other. This mob are in store condition & with improved body condition will present much tidier. Vendors mature cows avg 220kg & over when fat. Mob where agitated in yards due to temperament & numerous handlings in yard. would respond well to a stock person who has the time to re-educate these cows with dogs or good handling practises. The cows are retrainable with time and persistence. Generally not aggressive types that are intensionally wanting to attack, more nervous and have collected some undesirable habits.
