Totals			90%	10%	100%

Comment on Fat Score 1 Cattle	Heifers are store to backward store condition. Given these cows are young & energetic they will handle travelling long distance, with regular 800 km spells. May require dipping at Richmond/Julia Creek if crossing the tick line, therefore would require a spell the same day. Recommended loading next day after dip. All have been on trucks as weaners over 800 km so are familiar with transporting.
-------------------------------	---

Vendor Bred	Yes
Stock History	Vendor Bred heifers. Bred on vendors Northern QLD breeder property and relocated late 2020 to backgrounding property.
Lifetime Traceable	Cattle SHOULD be lifetime traceable but no guarantees will be made due to inter property transfers that may have some non readers or odd malfunction
Bloodlines	Vendor bred heifers using quality Brahman Sires. Out of large brahman base cow herd located at ` Chillago. Approx 35% of poor quality & confirmation

Grazing Conditions	A fair stand of dry Mitchell & Flinders grasses. On open rolling black soil downs country. Returned same
--------------------	--

Burr/Seed in Coat	Prickley acacia is present on the property. Bean pods re currently soft and developing therefor risk of spread is minimal. Cows are being fed hay in yards since 1/9/2. by delivery risk of spread is low.
-------------------	--

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Chemical Residue	Nil

Vendor Comments	These heifers are typically not replacement style heifers in our herd, they have conceived due to unanticipated bull exposure. They are nervous/anxious in yards but ok in paddock, usually mustered with helicopter & bikes. Sale due to depleting feed							
Joining Details	Station Mated - Continuously Joined Bull Breed(s): Brahman, Charbray							
Preg Tested?	Yes, this lot was pregnancy tested, by DR John HOSEY (Vet) on 01/09/2021. 70 Head (100%) PTIC, from 2 to 7 months (at time of assessment). Certificate Available.							
Other Joining Details	32 PTIC 5 MONTHS & UNDER IDENTIFIED BY FEATHER BANG TAIL, 38 HD PTIC 6 MONTHS & OVER IDENTIFIED BY FULL BANG TAIL. Joined to a Brahman& Charbray bull							
	Frame		Quality Grades		Store Condition		Muscle Score	
	Large	10%	Good	55%	Store	100%	D	100%
	Medium	60%	Fair	35%				
	Small	30%	Plain	10%				
Temperament	Yards		Crush		Paddock			
	Quiet: 8 head		Slightly Stirry: 36 head		Temperament not assessed in			
	Slightly Stirry: 40 head		Stirry: 30 head		Paddock			
	Stirry: 22 head							
	Heifers are nervous & anxious in the yards as a mob. They are sensitive to small amounts of pressure & have a long flight zone but are generally not aggressive. They require experienced handlers especially with brahman cattle recommended. In the head bale when caught all showed anxiety. In the paddock on vehicle inspection heifers generally settled. except for a few silly leaders, heifers generally settled once in larger yards. Not pound drafted. Always exposed to helicopter mustering.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles							
Assessor Comments	Preg tested in calf heifers and young cows. Majority number 9 with some number 8. 38 PTIC 6 months advanced pregnancy. 32 PTIC 5 months and under. Expect brahman bull sired majority of the heifers. Heifers display good growth potential on productive pasture. Fair bone and fair confirmation on mob. 100% vendor bred. Generally a line of Brahman with 41% red/honey, 28% grey & 10% brown, 11% black/brindle & other. Heifers are 55% good quality with tail in the mob of lighter bone and confirmation. This mob are in store condition and with improved body condition will present well. Mob where agitated in yards due to numerous handlings prior to assessment. 100% display hump. Heifers would respond well to a stock person who has the time to re-educate these heifers with dogs or good handling practises. Generally not aggressive types that are intensionally wanting to attack, more nervous and have collected some undesirable habits. 2 x twisted nose on mob
