Assessor Comments	Offering 203 Brahman and Brahman Cross PTIC Heifers. These heifers averaged 384kg live at assessment after a big curfew. These heifers are majority branded No.0 and No.9 with a small percentage a few years older. The heifers have been running with Angus bulls and were vet PIC 4 - 9 months in calf at assessment. These heifers are doing well considering the deteriorating season and present in strong condition. This is a great opportunity to purchase a large line of PTIC heifers for the restocker. Please note 2 heifers sighted with a bent tail and 2 with possible dog bites sighted as well.
