Handled With	Heifers worked well trough yards with a few becoming agitated in the crush but settled quickly when returned to the mob Bikes , Dogs , On foot			
Assessor Comments	Buyers a great opportunity to secure a good quality line of Black 5-8mth PTIC heifers. Heifers are out of large to medium framed Brangus and Angus cross cows by Gidyea Brangus and Ultrablack bulls, these are the Vendors replacement heifers only being sold as change of direction with property occurring. These girls have all their lives ahead of them and would be an asset to most breeding herds with progeny expected to suit lucrative 75%Angus premiums. Please note a couple of heifers have white on underbelly and a couple showing slight brindle tinge (all visibly brindle and colored heifers were removed into the 2 deck line of sisters this sale) please note several heifers were showing slight lice rub marks not considered detrimental. Several springing heifers were removed from mob at assessment due to fit to load practices.
