Assessor Comments	These cows are PTIC 1-7 months & have been running on oats for 8 weeks. They would suit a trade operation to calve out & fatten the cows. Could also calve out & take out younger cows for breeders. Of the cows handled there are 6 cows with horn that has regrown after dehorning, 3 cows with a hip off & 1 cow with a blue eye. A number of cows are showing signs of lice. Buyers please note that of the calves born since vendor has purchased there has been some calves showing Wagyu characteristic. Vendor has 2 other lots this sale.
