	This mob of Cows have been on hand in the yards for a couple of days and were preg tested the day prior to assessment. This resulted with a few getting a bit flighty in the yards and the crush. The majority of the cows worked well through the pound, crush and yards; with only a couple challenging when too much pressure was applied.					
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Vehicles					
Assessor Comments	An opportunity to purchase two decks of very handy mixed aged PTIC cows has presented itself. These cows are in strong condition, and all due to calve within 2 months of each other to Top Quality Angus bulls; which will allow the purchaser to breed an even line of calves to supply either the lucrative trade or Angus Infused feeder markets. Unfortunately we were not able to see Year Brands due to the facility & breed as some were showing age, but present in strong healthy condition with some in prime condition. Please also note there is a couple with clouding in the eye/old scaring but not detrimental. There is also 2 decks of the sisters PTIC cows in same sale
