Assessor Comments	Here is a rare opportunity to secure a line of well bred young shorthorn cows with 45 years of breeding behind them. These cows are predominantly on their 2nd calf, 2 two year old heifers are on their 1st, PTIC to the registered Yamburgan, and Futurity blood bulls. These young cows exhibit good growth for their age, and given the opportunity, will mature into medium to large frame cows. There are 10 red PTIC tags, and 1 blue PTIC tag. Please be aware that there are 2 separate joinings in this line of cows. I would draw your attention to the comments at the bottom of the preg testing certificate [see photo]. Buyers please note, 5 of these cows have old pink eye scaring in 1 eye, none of which is deemed detrimental.
