Assessor Comments	Offering a line of Angus heifers and calves. Heifers have been purchased and calved down specifically as part of the "Timor Cattle" heifer operation. Heifers have been running in the hills and present with winter coats. They are in store condition with the ability to grow out into longevity proven breeders. Calved down unassisted and with ease as they were joined to the LBW Angus bulls. Milking well these heifers are doing a great job on their calves. Calves are 2-10 weeks with 68kg avg. Please note (8) heifers with white under belly, (4) heifer with blue/cloudy discoloration in eye deemed not detrimental. See photos for clarification.
