Assessor Comments	12 Hereford heifers PTIC to an Angus bull. These heifers were purchased out of East Gippsland in January and were joined to a low birthweight Angus bull. These heifers are of medium frame and are heavy boned heifers with plenty of muscle. They are in forward store condition and have been hand fed resulting in a nice line of manageable heifers for calving or a smaller farming operation. They were preg-tested on the 13/7/21 to be 4-7 months in calf, presenting as a good opportunity to have calves on the ground by the end of the year. A nice line of heifers that will make good mothers. Buy with confidence.
