Slightly Stirry: 2 head

Temperament not assessed in
Paddock

Very quiet young breeders to handle. Led through the yards easily, Just 2 getting slightly nervous in the crush, listed above as slightly stirry, settled as soon as the head bale was opened and exited at a walk. Really sweet natured females that were a pleasure to handle.

Assessor Comments

Big roomy females that will continue to grow & develop beyond calving and fill out to be big solid matrons. Very good length and depth and already showing a bit of bag underneath, suggesting plenty of milk too. PTIC to a high calving ease Te Mania sire for a December calving. These are a really nice draft of smart young heifers that have been given every opportunity to properly grow out prior to joining. Placid natured, showing plenty of milk and good maternal attributes, these females would be an excellent asset to an existing herd, or hobby farmer wanting a few quiet breeders. Buyers please Note. 2 heifers noted with a small white patch on their flank/udder. Please see photos & video for full contentment.
