	Well handled young females that have been through the yards a number of times, knew where they were going and behaved very well. All led out of the yards and stood quietly in the corner to walk through and photograph. The 1 Heifer with an eye blemish was nervous to handle when standing on her vision impaired side.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	Nice little line of healthy young Heifers, just at the point of starting to shift their Winter coat, in ideal condition to carry forward towards calving. These females are by Bulls selected for IMF, EMA & 400 day growth, and have been joined to selected sires carrying the same traits. These females are bred for length & depth, targeting a moderate mature cow weight. Buyers please Note. A few heifers presented with some small rub marks, 1 with a minor dot in her eye, 1 with a white patch on her flank (no larger than a \$5 note) 1 heifer has minimal vision in 1 eye, its is at the buyers discretion to leave her out (biggest heifer in mob, 556kg). Please see photos & video for full contentment.
