Quiet: 6 head

Quiet: 6 head

Temperament not assessed in
Paddock

Well handled young females that have been through the yards a number of times, knew where they were going and behaved very well. All stood very quietly on the scales and exited at a walk. Led calmly out of the yards and stood quietly in the corner to walk through and photograph.

Handled With

Bikes , Dogs , On foot , Vehicles

Assessor Comments

Nice little line of healthy young proven breeders, just at the point of starting to shift their Winter coat. Currently in their working clothes, having not long had weaners pulled off them. These females are by Bulls selected for IMF, EMA & 400 day growth, and have been joined to selected sires carrying the same traits. These females are bred for length & depth, targeting a moderate mature cow weight. Only drafted separately due to throwing back to the white face genetic. These are an ideal small lot of fuss free proven breeders with the temperament to suit a hobby farmer, or to top up numbers for a larger scale Autumn calving operation.
