Assessor Comments	Angus cows and calves presenting in store to forward store with a very good sappy C.A.F 3-4 mths in age. The vendors herd has been culled heavily for age and these are some younger 1st calving heifers 6 sound cows and 2 broken mouthed cows with plenty of life left. Bloodlines of the cows are based of FERNHILL & black aqua blood. Calves are black aqua & Bella-spur blood and have been vaccinated @ marking. Cows would respond very well with a drench heading into spring. They are depastured to Angus bulls for a autumn calving. Very quiet units. Please note: 2 cows did have old pink eye scarring. Nothing detrimental
