Temperament	<table><tr><th>Yards</th><th>Crush</th><th>Paddock</th></tr><tr><td>Quiet: 25 head Slightly Stirry: 2 head</td><td>Quiet: 23 head Slightly Stirry: 4 head</td><td>Quiet: 25 head Slightly Stirry: 2 head</td></tr></table> No problems to handle but they were slightly agitated on assessing, no doubt due to the high energy feed they are on. Heifers were slightly upset when calves were taken away from them for assessing but settled well once they were put together and then were quiet. Handled With	Bikes , On foot , Vehicles																		
Assessor Comments	A wonderful opportunity to secure young future breeders that have years of breeding. From a closed herd that has used the best genetics and spared no expense when purchasing Bulls. Calves in this lot were naturally bred by Anvil Sires (the group of 37 x 37 from same Vendor has AI bred Calves) These Heifers are in their current condition due to a wet winter and are showing signs of scurf (loss of hair) which is prevalent at this time. I know that these cattle will perform once the weather improves and they are shown some good feed. You are purchasing potential and outstanding bloodlines. Highly recommended.
