Assessor Comments	A wonderful opportunity to secure young future breeders that have years of breeding. From a closed herd that has used the best genetics and spared no expense when purchasing Bulls. All Calves in this Lot are AI bred from Adameluca Sires and calved over a 10 Day period. (The calves on the other Lot of 27 x 27 in this Sale from same Vendor are naturally bred) These heifers are in current condition due to a wet winter and are showing signs of scurf (loss of hair) which is prevalent at this time. I know that these cattle will perform once the weather improves and they are shown some good feed. You are purchasing potential and outstanding bloodlines. Highly recommended.
