Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	These are classed out cows from the Harlock Pastoral herd which were drafted off prior to calving. They all calved down to top end Poll Hereford bulls purchased from Banemore & Days White Face, so the calves are full of genetic potential. Calves were marked on 20/5/21; Steer calves are identified by red ear tags, Heifer calves have yellow ear tags. Allendale and Weeran Angus bulls were put back over the cows and they have been preg tested back in calf to calve again in M/A next year. They are *EU accredited* and PCAS Eligible. The majority of the cows are only 3 & 4 yo, and this represents a real opportunity to purchase young cows with a calf at foot, where all the hard work has been done and they are back in calf. All cows are sound and none are showing lameness, but please note that 5 of these cows have long back toes, (on 2 of these cows both their back feet toes are long).
