	Slightly Stirry: 9 head	Slightly Stirry: 9 head	Temperament not assessed in
	Stirry: 10 head	Stirry: 10 head	Paddock
	Easy to move around and handle, just a bit of run, they stood well on scales but some were fast to get off.		
Handled With	Dogs , Vehicles		
Assessor Comments	A line of 19 Watervalley crossbred cows 403kg at assessment with 19 calves at foot, The cows present as healthy strong store condition and the calves look healthy. Cows are generally easy handling in paddock and yards with a bit of run. Cows are putting everything into their calves and doing a great job, they have been on fresh grass and clover based pasture and will grow on if fresh feed is available. Watervalley cows are well known for their ease of calving and good doing ability under most environments, they were Dectomax drenched, 5 in1 B12 vaccinated plus Multimin so are perfect to put straight out. Younger cows and calves have all the hard work done and will go forward with Spring feed soon available. Half of these calved a lot earlier and have larger calves at foot.		
Assessor	Nick Downward (Level 1 Accredited) Phone: 0429 911 166
