Assessor Comments	These ewes come from exceptionally fertile breeding stock. (Mothers have been running around 160% for last few years) Open faced, free growing merinos that are from classed Pastora blood ewes. Cassilis Park sheep are known for resilience in many different environments, from high rainfall tablelands out to Dry western districts of western NSW and Qld. They're are medium micron sheep that will mature around 18.5-19mic and cut approx 7kg of fleece. Only being sold due to the sale of property. Wonderful opportunity to buy, quality, as dropped ewe lambs, to enjoy the spoils of, for many years to come.
