Assessor Comments	Presented is a very neat article of 230 vendor bred, genuine 2nd cross suckers. These suckers present in good healthy condition, taking full advantage of still being on mum. April/May drop averaging 35Kg at assessment, these lambs will continue to grow and fatten into the ideal 2nd cross trade or export weight lamb. Each lamb was individually weighed with any lamb under 28Kg being removed from the mob. Weight ranges from 28Kg-46Kg. Suckers were marked in June and received a drench and were vaccinated with Glanvac 6S B12 as well as scabigard. Lambs are sired by Gillmore Poll Dorset Rams out of medium to large framed Kildara Glen and Gullen Gamble blood Border Leicester X Merino ewes. Suckers show good length, depth and stretch. A great opportunity to secure a line of vendor bred, drenched and vaccinated lambs to continue to grow out into killable weights over the expected good spring conditions.
