Assessor Comments	Offering 165 scanned empty ewes presenting in very fresh healthy condition responding very well to the lucerne crop they are currently on. Ewes have all been sired by 'Mumblebone' and 'Kerin Poll' Merino rams that are carefully selected to be in the top 5% for fat and muscle also being in the top 20% for growth. Ewes are all 12-13 months of age with a sample of ewes mouthed showing a small percentage of ewes are cutting teeth into Hoggets. Ewes are all carrying impressive amount of wool that is clean with very nice crimp and style. Ideal ewes to pursue as future breeders with an impressive rebait of wool yet to be collected.
