| Assessor Comments            | A well bred line of sucker lambs ideal to finish on grain or crop. Lambs are normally finished to kill weights but are on the market due to the dry conditions throughout the Mallee. The lambs were weaned at assessment and put onto self sown cereal and clover. They are bred from large frame Merino ewes, sired by White Suffolk rams.                                                 |     |               |      |
