Assessor Comments	An opportunity to purchase an even line of bare shorn Merino Wether lambs that will bounce away heading into the spring. Wethers are forward in conditions and have the ability to grow out to big wool cutting bale fillers going ahead. Genetics are a Stud Park South base with the introduction of Coryule Genetics over the last few years. At 8 months of growth the wethers have cut 3 kgs of 17 micron wool. Due to sheep coming out of a long wet winter there is the odd lamb lame, wethers were ran through a foot bath and will recover no doubt heading into the warmer months.
