Assessor Comments	300 second draft Border Leicester/Merino wether lms with a 5% tail removed. All lms are fully crutched, vaccinated and ready to go. They are only being sold to make room for more ewe lms and increase hay production. These lms would normally be retained then shorn late September then grown out for the heavy trade/ export market. Buyers please note even those these lms have been crutched there is still some dry stain on the skins.
