Vendor Comments	IN THE LINE THERE IS 4-5 LMS THAT HAVED BEEN MARKED LATE, HENCE STILL HAVE TAILS.
Assessor Comments	Good quality line of wooly 2nd cross wth lambs bred out of med-large framed BL/MO ewes, sired by high index Composite rams. Average 26.6kgs, range 20-34kgs. The complete drop of Composite wth lms with the tail taken off. These lambs have plenty of potential, are fresh, weaned & are very young so have plenty of time to grow out into export weights given the right feed and conditions. Very even line, vendor only selling due to the high lambing percentages & feed becoming tight on this property. These lms have been introduced to feeders & a barley/lupin mix. Are priced to sell.
