Assessor Comments	Good quality line of wooly 1st cross BL/MO wth lambs bred out of med-large framed MO ewes, sired by high index Inverbrackie bld BL rams. Average 27.8kgs, range 21-36kgs. The complete drop of BL/MO wth lms with the tail taken off. These lambs have plenty of potential, are fresh, very young so have plenty of time to grow out into export weights given the right feed and conditions. Very even line, vendor only selling due to feed becoming tight on this property. These lms have been introduced to feeders & a barley/lupin mix. Are priced to sell.
