	This mob of Cows had been on hand in the yards for a couple of days and were preg tested the day prior to assessment. This resulted with a few getting a bit flighty in the yards and the crush. The majority of the cows worked well through the pound, crush and yards; with only a couple challenging when too much pressure was applied.					
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles					
Assessor Comments	Don't miss the opportunity to purchase three decks of Good Frame, roomy, mixed aged PTIC cows. These cows are in strong condition and should start calving in February 2022. They are also due to calve within 2 months of each other to Top Quality Angus bulls. This allowing the purchaser to breed an even line of calves to supply either the lucrative trade or Angus Infused feeder markets. Unfortunately we were not able to see Year Brands due to the facility & breed, but they all present in strong healthy condition with some in prime condition. Please also note there is a couple with clouding in the eye/old scaring but not detrimental. There is a photo of the ripping calves that were weaned off these cows earlier this year in the pictures to show they are good breeders
