These heifers were weighed after being in the yards from 3pm the day before that also included being pregnancy tested. They did have access to water and some hay overnight. Restocker opportunity to secure some additional females to calve out and retain for future breeding purposes. Breed and age assessment is an estimate only due to these being purchased heifers at the commencement of 2021 out of Dalby Saleyards. Please note there are also an additional 26 heifers that were pregnancy tested empty also available in this sale that could be used to fill a truck.
