Health Treatments	Drenched	14/04/2021	dectomax backline	
	Drenched	01/09/2021	Demize Backline	
	Vaccinated	05/01/2021	7 in 1	
Vendor Comments	These heifers are only for sale as they were slightly younger calves and missed the cut for joining with our normal 1st November joining due to a dry 2020, so we decided to join them so they would be autumn calving to meet that market.			
Joining Details	Station Mated bulls put in: 05/05/2021 bulls taken out: 05/09/2021 (124 days) Bull Breed(s): Angus To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.			
Preg Tested?	Yes, this lot was pregnancy tested, by Kim Groaner (Vet) on 08/09/2021. 16 Head (100%) PTIC, from 2 to 5 months (at time of assessment). Certificate Available.			
Other Joining Details	Heifers are in calf to Booroomooka Failsafe bulls P265 and P320 who have birth weight EBVs of 2.8 and 3.1.			
	Quality Grades		Store Condition	
	Very Good	100%	Fwd Store	100%
Temperament	Yards		Crush	Paddock

Quiet: 16 head

Quiet: 16 head

Temperament not assessed in
Paddock

These heifers are very quiet, it is clear that plenty of time has been spent with them since a young age. These heifers are very well educated and worked through the yards perfectly. The Temperament of these cattle is a credit to the vendor.

Handled With

Bikes , Dogs , Horses

Assessor Comments

Here is a very pretty lot of PTIC Angus Heifers, they are PTIC to Angus bulls 2-4 months for an Autumn Calving. These heifers are very good quality and have magnificent temperaments, they possess plenty of bone and growth tho still show plenty of femininity, they would grow into beautiful big cows given the chance. These heifers would be ideal for someone wanting to kick off their first mob of breeders or equally would be an asset to anyone's cow herd. The door knocks as an opportunity arises to secure a handful of very good quality Angus breeders.
