Assessor Comments	An excellent line of N drop Angus Cows and Calves which have been rejoined to Eastern Plains Angus Bulls, specifically selected on growth and IMF. The majority of these heifers were purchased as PTIC ex Team Te Mania member Coomete. To match the line are 7 Morella bred cows which also carry high quality Te Mania genetics. These proven breeders are doing a great job raising their calves and milking exceptionally well. The calves were marked two weeks ago and treated with 7 in 1 and given an ADE injection, the male calves were elastrated. There are two small unmarked calves in the mob. 6 light blue eyes, two cows with short tails and 12 cows with a small amount of white on the udder, the odd cow has signs of rubbing from lice which looks to have past. These reliable cows will complement any breeding herd.
