Assessor Comments	aged cows with sappy calves at foot, cows drafted out of large coastal breeding herd for age, mouths are from very worn, gappy to short full mouths, tremendous performance breeding history, calved every year, and reared a calf under costal grazing conditions, calves are very good, approx 5 are Charolais sired(wakefield bull) all the Angus calves are sired by Brooklana Angus bulls, these cows are strip fed rye grass daily, cows are milking the house down, will continue to put everything in to calves with similar nutrition , calves marked and had their needles, udders are generally very good, with 1 cow with a enlarged quarter, cows deemed sound to rear this calf, cows are ideal to rear the calf and split, the calves are very good quality and would suit most discipline's, not rejoined
