Temperament	Yards	Crush	Paddock
	Quiet: 8 head	Quiet: 4 head	Temperament not assessed in

Slightly Stirry: 20 head

Slightly Stirry: 24 head

Paddock

The cattle flowed through the race and crush well with no pressure applied. Cattle are typical of Northern bred cattle and need room. They block up well and would quieten down with more handling. Though the cattle free moving they are not to bad to handle and are suited to people experienced handling cattle and / or used to Pastoral bred cattle.

Handled With

Dogs , Horses

Assessor Comments

A line of Georgina Gold Heifers. They look very similar to Angus Charolais cross heifers and are nice soft heifers with good clean coats. The cattle are free moving and as you can see in videos are good to handle if you don't pressure them. The cattle were bred at LAke NASH and grown out at Caldervale Station Tambo. The vendor bought the heifers and grew them out and joined them to LBW angus bulls. The heifers were preg tested at assessment by an experienced tester by manually Palpation. Four head were observed to be more red in colour with the balance a siler /grey colour
